Oath

To Tokyo Electric Power Co.

I comply with the following as I am supplied with “Specification of Electronic Watt-hour Meter with Transformer” (hereafter referred to as the “Specification”):

1. Strictly keeping the contents of the Specification secret and not leaking it to any third parties.
2. Not disclosing the Specification to any third parties without your permission by writing.
3. Not using the Specification for any purpose other than production of the meter indicated on the Specification and development of related systems.
4. Not obtaining patent and rights to utility model and design on creation, including invention, device, and design, carried out in accordance with the content of the Specification.
5. Promptly returning or discarding the Specification when the objective disappears or at your request.
6. Consenting to bidding companies exercising your patent and/or rights to utility model and design when you order the watt-meter if such patent and/or rights are included in the order. Conditions of the consent will be determined through separate consultation.
