

## Electricity Rate Unit Price Chart (Extra High-Voltage/High-Voltage)

<New rate plans>

The unit prices (effective from April 1, 2024) are as follows:

※ If a general transmission and distribution utility, etc. revises its wheeling charges, TEPCO EP's electricity rates shall be revised to reflect the amount that the cost has fluctuated in conjunction with wheeling charge revisions on the day that the revisions to the wheeling service, etc. provision take effect. Depending on the wheeling charge revisions, basic rates may also be revised along with energy amount rates.

	Energy amount rate	Morning	1 kWh	¥14.09
		Afternoon	1 kWh	¥14.09
		Evening	1 kWh	¥14.09
		Night	1 kWh	¥14.09
Reserve power	Reserve line	Basic rate	1 kW	5 % of the applicable basic plan rate
		Energy amount rate	1 kWh	Applicable permanent supply rate
	Reserve power source	Basic rate	1 kW	10 % of the applicable basic plan rate
		Energy amount rate	1 kWh	Applicable permanent supply rate

※ "Morning" refers to the time of use (TOU) period from 8AM to 1PM on weekdays (including Saturdays).

※ "Afternoon" refers to the TOU period from 1PM to 4PM on weekdays (including Saturdays).

## <Attachment 2>

- ※ “Evening” refers to the TOU period from 4PM to 10PM on weekdays (including Saturdays).
- ※ “Night” refers to the TOU period other than morning, afternoon, or evening. However, the entirety of Sundays/holidays (holidays designated by the Act on National Holidays), January 2, January 3, April 30, May 1, May 2, December 30, and December 31 shall also be considered “Night.”
- ※ “Permanent supply” refers to the basic plan, market price adjustment-free plan, or market price-linked plan that has been signed up for along with reserve power.
- ※ Customers who wish for power to supplement private power generation can combine new rate plans by selecting either the basic plan, market price adjustment-free plan, or market price-linked plan for the base contract capacity that corresponds to permanent supply, and either the basic plan or the market price-linked plan for the load-following contract capacity, which corresponds to the supplement power for private power generation.

※ In order to properly reflect power procurement conditions and power sales volume trends in our rates, the basic market unit price for the basic plan shall be announced via TEPCO's website (in Japanese only) before the end of December 2023 and shall be no higher than the current level.

<Current rate plans>

The unit prices (effective from April 1, 2024) are as follows:

- ※ Neither the current unit price nor the revised unit price includes the fuel cost, etc. adjustment unit price.
- ※ The revised energy amount rate unit price shall be set so that “the sum of the current unit price and current September 2023 fuel cost, etc. adjustment unit price (extra high-voltage -¥3.25 /kWh, high-voltage -¥3.35 /kWh),” and “the sum of the revised unit price and revised September 2023 fuel cost, etc. adjustment unit price (extra high-voltage -¥0.09 /kWh, high-voltage -¥0.09 /kWh)” are at a same level.
- ※ If a general transmission and distribution utility, etc. revises its wheeling charges, TEPCO EP’s electricity rates shall be revised to reflect the amount that the cost has fluctuated in conjunction with wheeling charge revisions on the day that the revisions to the wheeling service, etc. provision take effect. Depending on the wheeling charge revisions, basic rates may also be revised along with energy amount rates.
