

<Marine Organism Rearing Log>

9 AM, September 21, 2022

Weather: Sunny

Water temperature: 18.9°C

The fries (flounder) from this spring have joined in the rearing training tanks outside the premise. They are about half the size of big brothers and sisters who were born last year. They are like preschool junior and swimming around in the tanks, maybe their transfer excited them. Compared to that the seniors are so calm.
