

## <Marine Organism Rearing Log>

9 AM, October 13, 2022

Weather: Cloudy

Water temperature: 19.3°C

A viewing platform has been completed for as many visitors for direct viewing of rearing test conditions. The rearing test facility is cramped and congested with weirs and pipes on the floor. In safety point of view, we made an arrangement for visitors to observe the tanks of regular seawater and ALPS treated water added rearing water from outside the facility.
