

<Marine Organism Rearing Log>

9 AM, November 1, 2022

Weather: Sunny

Water temperature: 18.3°C

A new big help joined our rearing team today. Mr. K is a fishery expert who had been working with cultivation of fish such as abalones or sea cucumbers and seaweed for 40 years. As soon as he enrolled, we carried out health check of the abalones and the flounders at the rearing training facility.

The right hand of Mr. K, the big helper, who is checking the conditions of the abalones in the shelter.
