

<Marine Organism Rearing Log>

9 AM, November 17, 2022

Weather: Sunny

Water temperature: 18.5°C

It slipped out of our mind to add ALPS treated water to supplementary seawater for ALPS treated water added tanks. So we were unable to replenish rearing tanks. Today, we added ALPS treated water to supplementary seawater and became able to replenish. Also, along with that we arranged tritium concentration of rearing test tanks at low tritium concentration.
