

<Marine Organism Rearing Log>

10 AM, December 2, 2022

Weather: Sunny

Water temperature: 18.1°C

2 abalones in the ALPS treated water added tank were found dead on November 29, 2022 and 1 found dead on December 2, 2022. No flounders death were found. Mr. K, who joined our team last month and is an expert of rearing abalones, he will check on rearing test conditions next week immediately because his admission procedure to enter the controlled area is completed.

<Next report will be up on December 5, 2022>
