

<Marine Organism Rearing Log>

9 AM, January 31, 2023

Weather: Sunny

Water temperature: 17.7°C

Even in the same tank, weak flounders are facing relentless fights for survival, though not quite as harsh as the natural environment, such as being bitten by strong flounders or having their food taken away by other flounders depending on their body size or physical abilities. This leads to poor nutrition or injury and causes selection.
