

<Marine Organism Rearing Log>

9 AM, March 3, 2023

Weather: Cloudy

Water temperature: 18.4°C

Today, it is the “Peach Festival”. We celebrate the sound growth of girls with peach blossoms, but peaches are still buds. In Fukushima, there is a town called "Miharu machi", which is said to be named after three spring blossoms namely plum, peach, and cherry blossoms blooming at the same time. Soon we will have the blossom-viewing season along with flounders and abalones. We can hardly wait.

<Next report will be on March 6, 2023>
