

<Marine Organism Rearing Log>

9 AM, March 8, 2023

Weather: Sunny

Water temperature: 18.2°C

For those who visit the rearing facility, as an example of the "vigorous conditions" of the flounders and abalones, we show them the flounders biting into their feed or the abalones hiding from light to dark places. We will upload such figures (movements) from tomorrow.
