

<Marine Organism Rearing Log>

9 AM, March 13, 2023

Weather: Sunny

Water temperature: 18.7°C

As we mentioned it before, there are various types of flounders, such as big ones or small ones, and active ones or docile ones. We wonder if everyone can eat their feed, so we understand the feeling of a mother of a big family. The total volume of the feed is determined, so we increase the number of the feed by making the grain of food small.
