

## <Marine Organism Rearing Log>

9 AM, March 30, 2023

Weather: Sunny

Water temperature: 18.2°C

We provide live stream on YouTube so that many people can watch how we rear the flounders. We have also installed a dedicated screen at TEPCO Decommissioning Archive Center, where we provide information on the accident and the status of decommissioning, to enable its visitors to watch it. The center is a 15-minute walk from Tomioka station.
