

<Marine Organism Rearing Log>

9 AM, May 18, 2023

Weather: Sunny

Water temperature: 18.2°C

<Flounder's Journal>

Flounder: I wonder why we were chosen for the rearing test.

Abalone: Before the earthquake, we were living together with many others in the tanks in Okuma Town, weren't we?

Flounder: I am a representative - born in Joban region.

Abalone: I can sleep well even without a sand bed.

Flounder: I think we were definitely the ones for being chosen.
