

< Marine Organism Rearing Log >

9:00 AM, August 8, 2023

Weather: Sunny

Water temperature 18.5°C

We took some pictures from the perspective of the abalone. Abalone do not like bright places, so during the daytime they hide under the feeding board, so we temporarily removed it to take these photos. The PVC legs of the feeding board almost look like industrial ruins or an art installation.
