

< Marine Organism Rearing Log >

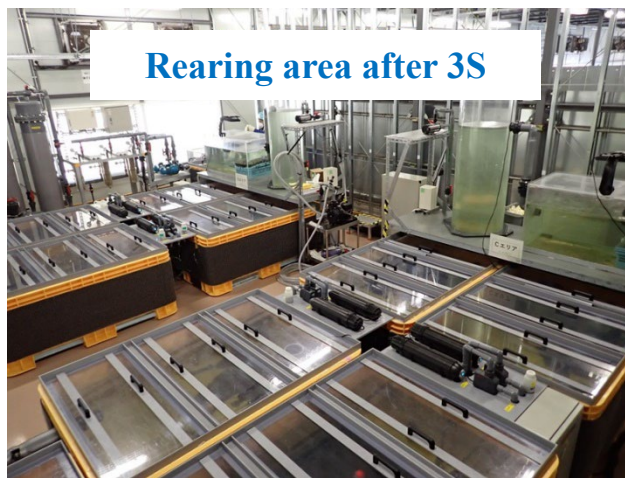

9:00 AM, August 10, 2023

Weather: Sunny

Water temperature: 18.6°C

Tomorrow is "Mountain Day," a national holiday. Many people start their summer vacations on this day, but the care of these living creatures will not be affected by national holidays, including New Year's Day, and the keepers will work in shifts as normal to clean the tanks, maintain water quality, and feed them. Since this day marks a milestone, we engaged in what the industry calls "3S" activities (sort, set in order, shine).

(Next report will be on Thursday, August 17)
