

<Marine Organism Rearing Log>

9 AM, October 30, 2023

Weather: Sunny

Water temperature: 18.0°C

Although the rearing of flounder and abalone is not directly related to the safety of nuclear plants, the safety of the keepers is an important element of nuclear power plants safety. Therefore, last week, representatives from the "Nuclear Safety Monitoring Office" (NSMO) at the Head Office observed keepers going about their duties to gain an understanding of work safety at the site.
