

**Remarks by Chairperson Itami during the First Meeting of the Independent  
Review Committee on Nuclear Material Protection**

June 10, 2021

The Independent Review Committee on Nuclear Material Protection was established as an independent body for the purpose of assessing the validity of internal investigations and cause analysis conducted by TEPCO, analyzing organizational factors related to the incidents being investigated, assessing corporate culture, and stringently examining proposed improvement measures from a third-party point of view. And, the Commission shall accomplish its mission.
