

## Installation of additional “Fukuichi Live Camera” for delivering real-time video streaming of Fukushima Daiichi Nuclear Power Station

Since May 31, 2011, at the company website, we have provided real time images through “Fukuichi Live Camera, a webcam for delivering video streaming installed in the premises of Fukushima Daiichi Nuclear Station. And this time, we have installed another camera on Unit 1 side in addition to the one on Unit 4 side currently under operation.
