

Removal of the 8th wall panel over Unit 1 reactor building at Fukushima Daiichi Nuclear Power Station

Reference
October 7, 2016
Tokyo Electric Power Company Holdings, Inc.

On October 7, removal of the 8th wall panel (north side of the top floor) around Unit 1 reactor building was completed, which means that all of the wall panels installed on the top floor have been removed.

No significant changes were observed at dust monitors measuring radioactivity concentrations and at monitoring posts installed along the site boundary.
