 Tokyo Electric Power Company

## Deploy staff to check for APD

For workers wearing protective clothes, a staff will check for their APDs visually or by hands at the locations indicated by a red circle ( ). (The check is already being done at the Main Anti-earthquake Building. For other areas, it will start in the late afternoon on August 10.)

## Identification of workers with APD

(The rule will be effective once the workers are notified)

←

- Workers going to the work site must wear **protective clothes** (with APD).

←.....

-After work, the workers will be checked for contamination before entering the Main Anti-earthquake Building or the rest area (The rule will be effective on August 10).

↔

- Workers must wear **regular work clothes** or **work clothes to be worn during transportation** when they go to the Main Anti-earthquake Building or the rest area.

- Before returning to J-Village from Fukushima Daiichi NPS, workers must change from protective clothes to regular work clothes or work clothes to be worn during transportation (The rule will be effective on August 10).
