- * Hyphen "-" indicates that neither sampling nor measurements were implemented.
- * Data on April 19 was treated as one before transfer since it was sampled just two hours after transfer so that small amout of water was transferred to the Process Main Building.
- * Sampling at Southwest part of the Process Main Building () was conducted once a week upto April 25 since it is located upper side of the groundwater.
- * Sampling at Southwest part of the On-site Bunker Building () was conducted as upper side of the groundwater once a week from April 29 since it turned unable to sample at Southwest of the Process Main Building ().

- * Hyphen "-" indicates that neither sampling nor measurements were implemented.
- * Data on April 19 was treated as the one before transfer since it was sampled just two hours after transfer so that small amout of water was transferred to the Process Main Building.
- * Sampling at Southwest part of the Process Main Building () was conducted once a week upto April 25 since it is located at upstream of the groundwater.
- * Sampling at Southwest part of the On-site Bunker Building () was conducted as upstream of the groundwater once a week from April 29 since it was unable to sample at Southwest of the Process Main Building ().
- * In this analysis, "ND" means that the results fall bellow the measurable threshold. (I-131: approx. 0.02Bq/cm3, Cs-134: approx. 0.03Bq/cm3, and Cs-137: approx. 0.04Bq/cm3) (as of July 3). Please note that these nuclides are sometimes detected even when they are below the threshold, contingent on the detector or samples.
- * Additional sampling at was conducted since it is located at thd downstream of the groundwater.
- * We have been sampling at since May 30.

<Place of sampling>

Southeast part of Unit 4 Turbine Building

Northeast part of Process Main Building

Southeast part of Process Main Building

Southwest part of Process Main Building

South part of Miscellaneous Solid Waste Volume Reduction Treatment Building

Southwest part of On-site Bunker Building

West part of Incineration Workshop Building

North part of Miscellaneous Solid Waste Volume Reduction Treatment Building
