- * Hyphen "-" indicates that neither sampling nor measurements were implemented.
- * was conducted as upstream of the groundwater once a week from April 29 since it was unable to sample at ...
- * In this analysis, "ND" means that the results fall bellow the measurable threshold. (I-131: approx. 0.02Bq/cm3, Cs-134: approx. 0.03Bq/cm3, and Cs-137: approx. 0.04Bq/cm3)

(as of July 16). Please note that these nuclides are sometimes detected even when they are below the threshold, contingent on the detector or samples.

- * We have been sampling at since May 26, for it is located downstream of the groundwater.
- * We have been sampling at since May 30.

<Place of sampling>

Southeast part of Unit 4 Turbine Building

Northeast part of Process Main Building

Southeast part of Process Main Building

Southwest part of Process Main Building

South part of Miscellaneous Solid Waste Volume Reduction

Treatment Building

Southwest part of On-site Bunker Building

West part of Incineration Workshop Building

North part of Miscellaneous Solid Waste Volume Reduction Treatment Building
