

## Appendix: Overview of the Project

### 1. Overview

#### I. Asset Location

A) The Triton Knoll Offshore Wind Farm is located 32km from the UK shoreline at its closest point (off the coast of Lincolnshire) and 45km from the nearest coastal town (north of Norfolk).

B) The undersea cables from the offshore wind farm come onshore north of Anderby Creek, Lincolnshire, with the power entering the electricity network at Bicker Fen Substation, near Boston.

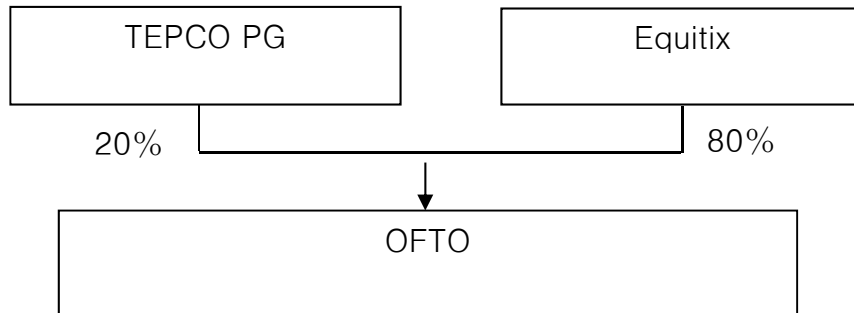

#### II. Asset Transfer: Spring 2022 (Tentative)

#### III. Revenue Period (concession length): 23years

### 2. Project Location

### 3. Project Structure

### 4. Overview of the Partner

#### Equitix Limited

- I. Location: Third Floor (South) 200 Aldersgate Street, London, EC1A 4HD
- II. CEO: Geoffrey Allan Jackson
- III. Establishment: 2007
- IV. Business: Investment, development and long-term fund management of core infrastructure and renewable energy assets in the UK and Europe
