## Work Schedule of the Main Inspection/Restoration of the Kashiwazaki-Kariwa Nuclear Power Station in Response to the Niigata-Chuetsu-Oki Earthquake(during 4 Weeks)(1/2)

【Inspection/Restoration Status】 ◆From May 24, 2009 (Sun) to June 20th, 2009 (Sat)

From May		(Sat)			1	
	System / Equipment	Items	May 24th (Sun) to May 30th (Sat) May 31st (Sun) to June 6th (Sat)	June 7th (Sun) to June 13th (Sat)	June 14th (Sun) to June 20th (Sat)	
Unit No.1	Turbine facilities	Turbine inspection *				High-pressure turbine and low pressure turbine (A) (B) (C) detailed i
	Other facilities	Submerged equipment inspection on ground floor 5 of the reactor combination building			· · · · · · · · · · · · · · · · · · ·	Restoration work to be conducted from Mar. 17, 2008 to late June 20
		Main transformer inspection				Carrying in and installation work commenced on Apr. 20.
		House transformer inspection				1A, 1B Carrying in and installation work commenced on Mar. 30.
		Excitation transformer inspection				Carrying in and installation work commenced on Mar. 30.
		Main generator inspection				Inspection commenced on Feb. 7, 2008.
		500kV power cable inspection			1	Preparation work for laying cables commenced on Mar. 2. Laying c
		Main exhaust duct inspection / restoration				Preparation for restoration work commenced on Aug. 9, 2008. Rest
		Circulating water pipe inspection				Foundation improvement, excavating work, and inspection of pipes of
	Seismic reinforcement	Seismic reinforcement works such as pipe supports				Preparation for reinforcement work commenced on Mar. 10.
		Seismic reinforcement works for the roof truss of the reactor building				Reinforcement work commnced on Jan. 22.
		Seismic reinforcement works for reactor building overhead crane				Preparation for reinforcement work commenced on Apr. 6.
		Seismic reinforcement works for stack (Unit No.1 and Unit No.2)				Preparation for reinforcement work commenced on Feb. 16.
		Seismic reinforcement works for the fuel handling machine			····	Reinforcement work commenced on Jan. 30.
		Seismic reinforcement works for emergency intake channel				Foundation improvement work commenced on Feb. 9.
	D					· · ·
Unit No.2	Reactor facilities	Reactor recirculation piping preventive maintenance				Perparation work commenced on Dec. 16, 2008. Ultrasonic testing of
	Turbine facilities	Turbine inspection *				High-pressure turbine and low-pressure turbine (A) internal inspectio
	Other facilities	House transformer inspection				Transportation into the factory is underway.
		Excitation transformer inspection				Transportation into the factory is underway.
		Main generator inspection			· · · · · · · · · · · · · · · · · · ·	Inspection commenced on Mar. 19, 2008.
		Main exhaust duct inspection / restoration				Preparation for restoration work commenced on Aug. 9, 2008. Resto
	Seismic reinforcement	Seismic reinforcement works for the roof truss of the reactor building				Preparation for reinforcement work to be conducted from Feb. 9 to J
Unit No.3	Reactor facilities	Reactor recirculation piping preventive maintenance				Preventive maintenance commenced on Sep. 12, 2008. Restoration
	Turbine facilities	Turbine inspection *				High-pressure turbine and low-pressure turbine (A) (B) (C) detailed Low-pressure turbine (A) (B) restoration work of blades commenced
	Other facilities	Main termsformer inner stime				
	Other facilities	Main transformer inspection				Transportation into the factory is underway.
		House transformer inspection			····	3A, 3B Installation work commenced on Nov. 18, 2008.
		Excitation transformer inspection				Installation work commenced on Nov. 18, 2008.
		Main generator inspection				Inspection commenced on Feb. 20, 2008.
		Inspection of power supply input transformer of the primary loop recirculation system				Transformer (B) carrying in and installation work commenced on Ma
		adjustable speed drive				Transformer (B) carrying in and instantation work commenced on wi
		adjustable speed drive 500kV power cable inspection				Preparation work for laying cables commenced on May 20.
					· · · · · · · · · · · · · · · · · · ·	Preparation work for laying cables commenced on May 20.
		500kV power cable inspection				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest
	Seismic reinforcement	500kV power cable inspection Main exhaust duct inspection / restoration				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest
	Seismic reinforcement	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of
Unit No.4	Seismic reinforcement Turbine facilities	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2.
Unit No.4		500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack Turbine inspection *				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2. High-pressure turbine and low-pressure turbine (A) (B) (C) detailed
Unit No.4	Turbine facilities	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack Turbine inspection * House transformer inspection				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2.
Unit No.4	Turbine facilities	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack Turbine inspection * House transformer inspection Excitation transformer inspection				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2. High-pressure turbine and low-pressure turbine (A) (B) (C) detailed Transportation into the factory is underway. Transportation into the factory is underway.
Unit No.4	Turbine facilities	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack Turbine inspection * House transformer inspection Excitation transformer inspection Main generator inspection				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2. High-pressure turbine and low-pressure turbine (A) (B) (C) detailed in Transportation into the factory is underway. Transportation into the factory is underway. Inspection commenced on Jan. 15, 2008.
Unit No.4	Turbine facilities	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack Turbine inspection * House transformer inspection Excitation transformer inspection				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Rest Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2. High-pressure turbine and low-pressure turbine (A) (B) (C) detailed Transportation into the factory is underway. Transportation into the factory is underway.
Unit No.4	Turbine facilities	500kV power cable inspection Main exhaust duct inspection / restoration Circulating water pipe inspection Seismic reinforcement works for the roof truss of the reactor building Seismic reinforcement works for stack Turbine inspection * House transformer inspection Excitation transformer inspection Main generator inspection Inspection of power supply input transformer of the primary loop recirculation system				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Resto Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2. High-pressure turbine and low-pressure turbine (A) (B) (C) detailed in Transportation into the factory is underway. Transportation into the factory is underway. Inspection commenced on Jan. 15, 2008.
Unit No.4	Turbine facilities	500kV power cable inspection         Main exhaust duct inspection / restoration         Circulating water pipe inspection         Seismic reinforcement works for the roof truss of the reactor building         Seismic reinforcement works for stack         Turbine inspection *         House transformer inspection         Excitation transformer inspection         Main generator inspection         Inspection of power supply input transformer of the primary loop recirculation system adjustable speed drive				Preparation work for laying cables commenced on May 20. Preparation for restoration work commenced on Jul. 23, 2008. Resto Foundation improvement, excavating work, and inspection of pipes of Reinforcement work commenced on Nov. 27, 2008. Preparation for reinforcement work commenced on Feb. 2. High-pressure turbine and low-pressure turbine (A) (B) (C) detailed in Transportation into the factory is underway. Transportation into the factory is underway. Inspection commenced on Jan. 15, 2008. Carrying in and installation work to be commenced on Jun. 12.

us of Inspection / Restoration
inspection commenced on Nov. 17, 2008.
2009.
cables to be commenced on Jun. 1.
storation of substruction commenced on Dec. 1, 2008.
commenced on Aug. 6, 2008.
commenced on Feb. 18.
ion completed.
toration of substruction commenced on Dec. 1, 2008.
Jun. 7. Reinforcement work to be commenced on Jun. 8.
of the piping cut-out part commenced on May 11.
l inspection commenced on May 7, 2008. d on Jun. 25, 2008. (Replacement of wear and contacted blades.)
a on suit. 25, 2000. (replacement of wear and confluence officies.)
flay 27. Transformer (A) carrying in and installation work to be commenced on Jun. 3.
flay 27. Transformer (A) carrying in and installation work to be commenced on Jun. 3.
fay 27. Transformer (A) carrying in and installation work to be commenced on Jun. 3. storation of substruction commenced on Jan. 9.
storation of substruction commenced on Jan. 9.
storation of substruction commenced on Jan. 9.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.
storation of substruction commenced on Jan. 9.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.
toration of substruction commenced on Jan. 9. commenced on Jun. 16, 2008.

## Work Schedule of the Main Inspection/Restoration of the Kashiwazaki-Kariwa Nuclear Power Station in Response to the Niigata-Chuetsu-Oki Earthquake(during 4 Weeks)(2/2)

		Seismic reinforcement works for stack				Preparation for reinforcement work commenced on Feb. 2.	
		Seismic reinforcement works for the fuel handling machine				Reinforcement work commenced on Apr. 23.	
Unit No.6	Reactor facilities	Primary containment vessel closure				Closure work completed on May 20.	
	Turbine facilities	Turbine inspection *				High-pressure turbine and low-pressure turbine (A) (B) (C) detailed in: Restoration of casing commenced on April 30.	
	Verification of system integrity	System functional test				System functional test commenced on Dec. 4, 2008. Reactor building airtightness inspection conducted on May 26.	
Unit No.7		Functional test for the entire plant				Inspection after generating power at approx. 20% of the rated output co	
Transformer (common) / Switch Yard		High-voltage start-up transformer #2 inspection				Transportation into the factory is underway.	
		On-site check / inspection / restoration of the oil protection bank for the transformer				Unit No.1 Restoration work commenced on Oct. 4, 2008. Unit No.2 Preparation for restoration work commenced on May 20, 200 Unit No.3 Restoration work to be conducted from Aug. 2, 2008 to Jun. Unit No.4 Restoration work commenced on Dec. 13, 2008. Unit No.5 Restoration work to be conducted from Aug. 27, 2008 to Jun Scrubbing of soil contaminated by oil leakage commenced on Sep. 16,	
Environmer	ntal Facilities	House boilers inspection				<ul> <li>(Arahama-side)</li> <li>1A Inspection to be conducted from Apr. 8, 2008 to September 2009.</li> <li>3A Preparation for toransportation of electric boiler transformer to be</li> </ul>	
		Restoration work of filtrate tank / demineralized tank on Arahama-side				Preparation for restoration work of No.1 filtrate tank/demineralized tan Restoration work of demineralized tank commenced on May 26. Restoration work of filtrate tank to be commenced on Jun. 1.	
Others		Restoration work for solid waste storage facility				Prevention countermeasure for drum falling commrnced on Jan. 16.	
		Restoration work for administration building / information building, etc.				Restoration work for administration building and information building	

\* Inspection results for each facilities will be announced as soon as they compiled.

\* Turbine inspection work will be conducted as follows:

- All units will be inspected in detail by opening all turbine casings after conducting internal inspection.

 $\mathbf{\nabla}$ 

Internal inspection will be conducted by opening the high-pressure turbine and low-pressure turbine (A) and visually checking for damages or significant deformation in major components such as the casings and blades. (For the unit No. 1, since the high-pressure turbine and low-pressure turbines (A) and (C) had been opened for regular outage at the time of the earthquake, inspections will be conducted for the low-pressure turbine (B) that had not been opened.) Detailed inspection includes, in addition to regular full-scope inspection, special inspection in consideration of the impact of the earthquake and necessary repairs in case damages are found.

\* Inspection and restoration work and execution date for each item may alter according to the situation.

estoration work for port facility

Construction of seismic-isolated essential buildings

estoration of laundry facility building on Arahama-side

instruction of arrestor steel tower on Arahama-side

oration and reinforcement work for the on-site / outside roads & slope, etc.

[Inspection/Restoration Status] ◆From May 24, 2009 (Sun) to June 20th, 2009 (Sat)

1	Status of Inspection / Restoration
	High-pressure turbine and low-pressure turbine (A) (B) (C) detailed inspection commenced on May 25.
	Carrying in and installation work commenced on Mar. 25.
	5A, 5B Carrying in and installation work commenced on Apr. 25.
	Carrying in and installation work commenced on Mar. 2.
	Preparation for restoration work commenced on Jun. 2, 2008. Restoration work of duct to be commenced on Jun. 8.
	Foundation improvement, excavating work, and inspection of pipes commenced on Oct. 25, 2008.
	Reinforcement work commenced on Apr. 28.
	Reinforcement work completed on May 22.
	Preparation for reinforcement work completed on May 27. Reinforcement work to be commenced on May 28.
	Preparation for reinforcement work commenced on Feb. 2.
	Reinforcement work commenced on Apr. 23.
	Closure work completed on May 20.
	High-pressure turbine and low-pressure turbine (A) (B) (C) detailed inspection commenced on May 12, 2008. Restoration of casing commenced on April 30.
	System functional test commenced on Dec. 4, 2008. Reactor building airtightness inspection conducted on May 26.
	Inspection after generating power at approx. 20% of the rated output conducted on May 23.
	Transportation into the factory is underway.
	Unit No.1 Restoration work commenced on Oct. 4, 2008. Unit No.2 Preparation for restoration work commenced on May 20, 2008. Unit No.3 Restoration work to be conducted from Aug. 2, 2008 to Jun. 30, 2009. Unit No.4 Restoration work commenced on Dec. 13, 2008. Unit No.5 Restoration work to be conducted from Aug. 27, 2008 to June 20, 2009. Scrubbing of soil contaminated by oil leakage commenced on Sep. 16, 2008.
	(Arahama-side) 1A Inspection to be conducted from Apr. 8, 2008 to September 2009. 3A Preparation for toransportation of electric boiler transformer to be conducted from Mar. 2 to Jun. 12. Carrying out to be conducted on Jun. 13.
	Preparation for restoration work of No.1 filtrate tank/demineralized tank commenced on Dec. 2, 2008. Restoration work of demineralized tank commenced on May 26. Restoration work of filtrate tank to be commenced on Jun. 1.
	Prevention countermeasure for drum falling commrnced on Jan. 16.
	Restoration work for administration building and information building is underway.
	Construction commenced on Oct. 14, 2008.
	Restoration work to be conducted from Jan. 30 to late September.
	Preparation work for reconstruction to be conducted from May 29 to Jun. 9. Reconstruction to be commenced on Jun. 10.
	Restoration work for roads inside and outside of the site currently in progress. Maintenance work of the slope in front of sub protection headquarter office commenced on May 13. Restoration work of Daini Takamachi Bridge commenced on May 12.
	Restoration work for bank protection commenced on Apr. 3, 2008.
