

Regarding Old and New Medical Systems

June 30, 2011

Tokyo Electric Power Company

Medical System (~ End of June)

Doctors stay at Main Anti-Earthquake Building, Fukushima Daiichi Nuclear Power Station for 24 hours since May 29.

Established transfer system to the next medical institution

Base	Doctor			Nurse		Facility	Role	Transfer
	Number	Hours	Dispatched from	Number	Hours			
Fukushima Daiichi	1	24 hrs	Univ. of Occupational & Environmental Health, Japan or Labors' Hospital	-	-	Main Anti-Earthquake Building	Primary Care Health Consultation	1 vehicle for transfer
Fukushima Daini	1	24 hrs	Dedicated Industry Doctor or Local Doctor	2	24 hrs	Healthcare room, Visitors' hall	Primary Care Health Management	1 vehicle for transfer
J Village	1	24 hrs	TEPCO Hospital	2	24 hrs	Medical Center	Make a triage decision on the patient and transfer to the next medical institution	Support the transfer to the next medical institution by road or by air
	1	Day time	Emergency Doctor dispatched from Offsite center				Primary Care Ad hoc health check	

Triage : To classify patients based on the severity and emergency of injury

Medical team at Offsite Center

Judge the medical institution to which a patient is transferred and the way of transfer based on the information provided from J Village, and arrange and make requests

Medical System (July ~)

- ✓ Opened an emergency medical room at Service Building of Units 5/6
- ✓ Emergency doctor with expertise of emergent radiation exposure treatment stays for 24 hours
- ✓ Differentiated the role from Main Anti-Earthquake Building and enhanced the specialties (flexibly support each other in case of emergency)

Red : Change from July

Base	Doctor			Nurse		Facility	Role	Transfer
	Number	Hours	Dispatched from	Number	Hours			
Fukushima Daiichi	1	24hrs	Univ. of Occupational & Environmental Health, Japan or Labors' Hospital	-	-	Main Anti-Earthquake Building	Deal with mild illness such as cold, stomachache Health Management	2 Vehicles for transfer
	1	24hrs	National Univ. Other Companies etc.	-	-	Service Building of Unit 5/6	Deal with illness which needs medical care (heat stroke etc.) · Injury (fracture etc.)	
Fukushima Daini	1	24hrs	Dedicated Industry Doctor or Local Doctor	2	24hrs	Healthcare room, Visitors' hall	Primary Care Health Management	1 Vehicle for transfer
J Village	1	24hrs	TEPCO Hospital	2	24hrs	Medical Center	Make a triage decision on the patient and transfer to the next medical institution	Support the transfer to the next medical institution by road or by air
	1	Day Time	Emergency Doctor dispatched from Offsite center				Primary Care Ad hoc health check
