

Overview of Official Twitter Account for Rolling Blackouts

1 . Overview of Account

- The Official Twitter Account for Rolling Blackouts is exclusively used for sending out information related to rolling blackouts if rolling blackout is necessary.
- Each group (1-A ~ 5-E) is provided with a different account. If rolling blackout is necessary, we would tweet the information through the designated account to the targeted group(s).

2 . How to Use

- Just by following his/her area's account on Twitter, a customer can obtain the information on rolling blackouts sent by the account.
- A customer who uses a Twitter function "Notice by Email" would be able to receive the contents tweeted in the following account by email.
- Please see TEPCO website for more details.
