## Work Schedule of the Main Inspection/Restoration of the Kashiwazaki-Kariwa Nuclear Power Station in Response to the Niigata-Chuetsu-Oki Earthquake (during 4 Weeks) (1/1)

【Inspection/Restoration Status】

◆From November 6, 2011 (Sun) to December 3, 2011 (Sat)

|        | System / Equipment            | Items  | November 6 (Sun) to November 12 (Sat) | November 13 (Sun) to November 19 (Sat) | November 20 (Sun) to November 26 (Sat) | November 27 (Sun) to December 3 (Sat) | Status of Inspection / Restoration  |
|--------|-------------------------------|--|---------------------------------------|--|--|---------------------------------------|---|
| Unit 2 | Turbine facilities            | Turbine inspection   |                                       | l                                      |  |                                       | High-pressure turbine and low-pressure turbine (A) (B) (C) detailed inspection commenced on Dec. 7, 2009.   |
|        | Other facilities              | Main generator inspection  |                                       | 1                                      |  |                                       | Inspection commenced on Mar. 19, 2008.  |
|        | Seismic reinforcement         | Seismic reinforcement works such as pipe supports  |                                       | 1                                      |  |                                       | Reinforcement work commenced on Feb. 1, 2011.   |
| Unit 3 | Reactor facilities            | Primary containment vessel closure   |                                       |  |  |                                       | Closure work commenced on Mar. 3, 2011.   |
|        | Verification of system integr | rity System functional test  |                                       | ,                                      |  |                                       | System functional test commenced on Nov. 16, 2010.  |
|        | 4 Turbine facilities          | Turbine inspection   |                                       |  |  |                                       | High-pressure turbine and low-pressure turbine (A) (B) (C) detailed inspection commenced on Aug. 3, 2009.  High-pressure turbine and low-pressure turbine (A) (B) (C) restoration work commenced on Jul. 5, 2010. |
| Unit 4 |                               |  |                                       |  |  |                                       |   |
|        | Other facilities              | Main generator inspection  |                                       |  |  |                                       | Inspection commenced on Jan. 15, 2008.  |
|        |                               | Inspection of power supply input transformer of the primary loop recirculation system adjustable speed drive |                                       |  |  |                                       | Carrying in and installation work commenced on Jun. 12, 2009.   |
|        | Seismic reinforcement         | Seismic reinforcement works such as pipe supports  |                                       |  |  |                                       | Reinforcement work commenced on Jan. 17, 2011. Reinforcement work for attached structure of reactor pressure vessel commenced on Jun. 27, 2011.   |

<sup>\*</sup> Inspection results for each facilities will be announced as soon as they compiled.

<sup>\*</sup> Inspection and restoration work and execution date for each item may alter according to the situation.

<sup>\*</sup> Unit 5 and Unit 6 are in operation, and Unit 1 and Unit 7 are in periodical inspection.
