

## Overview of the large solar power projects at coastal area of Kawasaki City

### 1 . Scheme

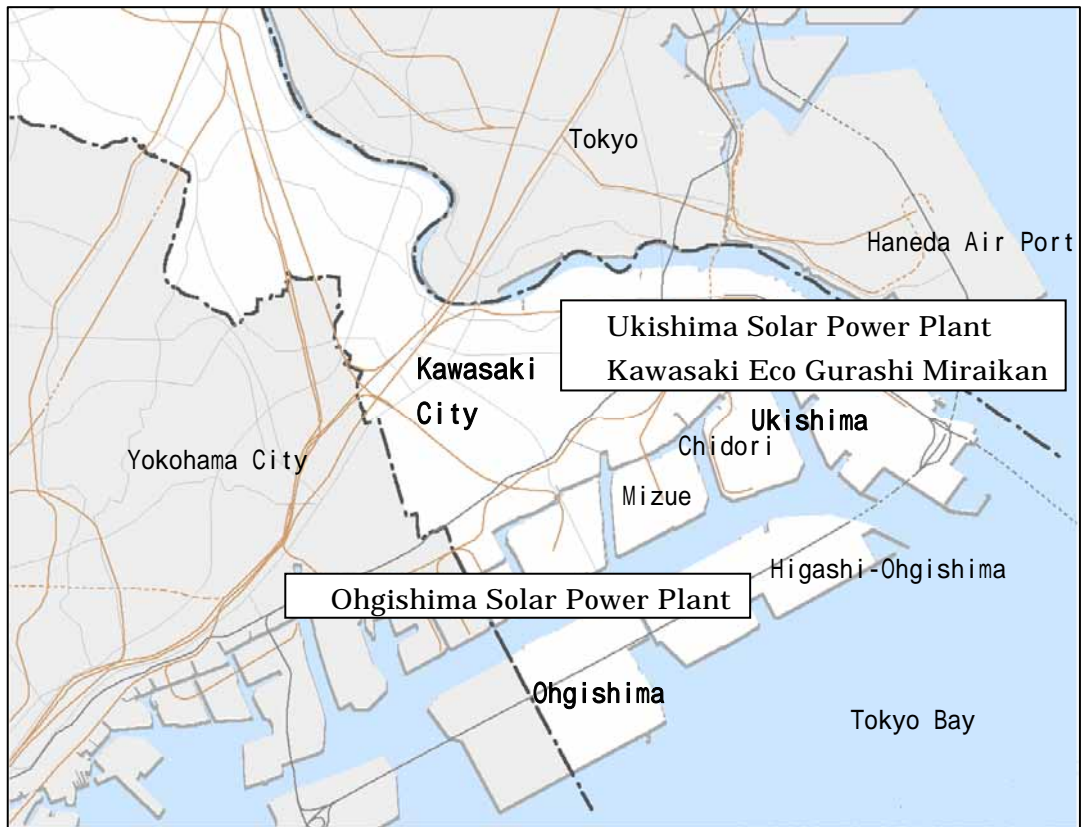

### 2 . Overview of Solar Power Plants

Name		Ukishima Solar Power Plant	Ohgishima Solar Power Plant
Location		Ukishima Town, Kawasaki Ward, Kawasaki City, Kanagawa Prefecture	Ohgishima, Kawasaki Ward, Kawasaki City, Kanagawa Prefecture
specification	Output (max)	7MW	13MW
	Estimated generation per year	Approx. 7,400MWh (Equivalent to the demand of approx. 2,100 households)	Approx. 13,700MWh (Equivalent to the demand of approx. 3,800 households)
	CO <sub>2</sub> reduction (estimated)	Approx. 3,100t	Approx. 5,800t
	Site area	Approx. 11 ha (owned by Kawasaki City)	Approx. 23 ha (owned by TEPCO)
	Number of photovoltaic cells	Approx. 38,000 cells	Approx. 64,000 cells
schedule	Start construction	April, 2010	April, 2010
	Start operation	August 10, 2011	December 19, 2011

### 3 . Overview of Kawasaki Eco Gurashi Miraikan

Administration	Kawasaki City
Location	Ukishima Town509-1 (in Ukishima Treatment Center), Kawasaki Ward, Kawasaki City, Kanagawa Prefecture
Business Hour	9:00 ~ 16:30 (admission free) Closed on Mondays and year-end and New Year holidays (Detailed information available at Kawasaki City Office)
Overview	Interactive exhibit focusing on Global Warming, Renewable Energy and Resource Recycling. Inspection tour on the solar power plant is arranged from observatory area etc.

#### 4 . Map

#### 5 . Outlook of Ohgishima Solar Power Plant
