

Projections for Fiscal Year 2013

The FY 2013 projections have been left as "to be determined," as shown below. On September 27 this year, we applied for the regulatory standard compliance examination for Units 6 and 7 of Kashiwazaki-Kariwa Nuclear Power Station; however, it is difficult for us to determine when we will be able to restart the power station. In addition, we must study cost reduction measures across all areas, giving careful consideration to the many factors that are necessary to ensure a stable power supply and public safety. We will announce the projections as soon as we are in a position to do so.

<Projections for the Fiscal Year 2013>

	Consolidated Basis	Non-consolidated Basis
Operating Revenues	To be determined	To be determined
Ordinary Income	To be determined	To be determined
Net Income	To be determined	To be determined
