	Total	6581																	6581	0.00	0.00

\* Number of dose and workers is subject to change, due to replacement of APD data to monthly dose data measured by integral dosimeter and reflection of workers who wear integral dosimeter (example: workers who entered only the Main Anti-earthquake Building).

\*1 Some subcontractors record the internal exposure dose of the workers on the day when measurement is performed by the whole body counter instead of the day of actual intake.

\*2 Normally, the internal exposure dose is recorded on the day when a worker intakes radioactive materials. However, as for the figures provided with “#” mark on the left side, it was recorded on the day when a measurement was performed by the whole body counter.
