(Note 1) For the customers using account transfer.

(Note 2) Renewable Energy Power Promotion Surcharge are calculated by "Renewable Energy Power Promotion Surcharge Unit Price (May 2013 - April 2014: 0.35yen/kWh)" times "Monthly Energy Consumption" and drop fractions less than one yen.

(Note 3) Photovoltaic Power Promotion Surcharge (Solar Surcharge) are calculated by "Solar Surcharge Unit Price (April - September 2014: 0.05yen/kWh)" times "Monthly Energy Consumption" and drop fractions less than one yen.

(Note 4) The calculation above includes consumer taxes and other related costs.

(Note 5) Tax rate will be raised from 5 to 8 percent since April 1, 2014. The tax rate applied to electricity rate for April 2014 remains, however, 5 percent, if a customer's contract with TEPCO has been continuously effective since before March 31, 2014, based on a transitional measure of Consumption Tax Act. The calculation above adopts the 5-percent tax rate. The above calculation is based on the 5-percent tax rate.
