Note)

•The values of the exposure dose and the number of the workers in the table above are subject to change, because there are times when APD data are replaced with monthly dose data measured by integral dosimeters. Or dose data of workers who wore only an integral dosimeter (ex., workers who entered only the Main Anti-earthquake Building) need to be updated in the table after the publication of the data.

•The record months of the internal exposure dose of workers in the data above can be changed when their "inhalation exposure days" (the days when they inhaled radioactive materials) are reviewed. Regarding the data this time, the record months of some workers have been changed.
