

Overview of New Rate Plans

1. New rate plans

(1) Plan choices [available from April 1, 2016]

Plan Name		Contents	
Standard Plan	Standard S	For customers who have an ampere breaker contract for electricity of up to 60 amps.	No change in the unit price for any time period. Two-tier pricing structure based on electricity usage.
	Standard L	For customers who have a circuit breaker contract for electricity of more than 6kVA.	
	Standard X	The basic charge is based on a customer's data of electricity usage from the previous year measured by Smart Meter every 30 minutes.	
Premium Plan		Electricity rates for up to 400kWh are fixed and discounted when it exceeds 400kWh. Ideal for customers who use a lot of electricity. There are additional services and perks that come with this plan by making advanced reservations.	
Smart Life Plan		Installation of a nighttime thermal storage appliance with a capacity of more than 1kVA is required. The daytime rates are the same as the Standard Plans, while the nighttime rates are discounted for electricity used from 1 a.m. to 6 a.m. Ideal for customers who use an All Denka system, a system where all household appliances are powered by electricity. Includes a repair service for household appliance break downs.	
Yorutoku Plan (Nighttime Discount Plan)	Yorutoku 8 (Nighttime Discount Plan 8)	The nighttime rates for electricity used from 11 p.m. to 7 a.m. the following day are discounted. Ideal for customers who use more electricity during nighttime hours.	
	Yorutoku 12 (Nighttime Discount Plan 12)	The nighttime rates for electricity used from 9 p.m. to 9 a.m. the following day are discounted. Ideal for customers who use more electricity during nighttime hours.	
Doryoku Plan (Power Supply Plan)		The basic charge is set in consultation between customers and TEPCO. There is another plan lined up called "2-year Discount on Business Pack," a 2-year contract plan where the rates are discounted by adding the Standard Plans.
