[^0]
[^0]:    * (1)Amount of groundwater and rainwater flowing into reactor and turbine buildinfgs: $69 \mathrm{~m}^{3} / \mathrm{day}$, (2)Amount of water transferred from groundwater drains to reactor and turbine buildings: $14 \mathrm{~m}^{3} /$ day, (3)(Total of (1) and (2)): $83 \mathrm{~m}^{3} /$ day, Rainfall: $12 \mathrm{~mm} /$ week
    * There are cases where there is a difference between the sum of each number on the table above and the "total" because the "total" is the sum of numbers with one digit after the decimal point.
