

----- [Fujiyama Power-line Trail "Field Use Pledge"] -----

I hereby pledge to the Tokyo Electric Power Grid Co. (hereinafter referred to as the "Field Administrator" in this Pledge) to use the Fujiyama Power-line Trail (hereinafter referred to as the "Field") after confirming the "Points to Note in the Field," and agreeing to the usage methods, rules for using the Field, and all of the following items.

I will follow the instructions of the field administrator, and always check my bicycle and perform other pre-ride self-checks before riding.

I will follow the instructions of the field administrator and read and check the "Caution Points in this Field" before riding.

I am fully aware of how dangerous it is to ride a bicycle, that it is done in a changeable natural environment, and that my physical condition may change rapidly during exercise. I am fully aware that the field is large enough to make it difficult to rescue or respond to emergencies.

In the event of an accident in which I am the victim or perpetrator, I will immediately take the necessary first aid, rescue, and other measures at my own risk, and will report and notify the field administrator of the details. In the event that I am injured, encounter an accident, or become ill, I agree that I may be given first aid and treatment, and I will not object to the method or results of such treatment.

I agree that I will be responsible for any injury, disability, or death resulting from my use of the field, and will not be held liable for any defect in the field, failure to take safety precautions, Or other deficiencies in safety management by the field manager (hereinafter collectively referred to as "defects"). In addition, the field manager's willful misconduct or negligence will not be held liable. I agree that the scope of compensation for damages based on defects in the field is limited to direct and ordinary damages and does not cover indirect or special damages, except for those caused by the intentional or gross negligence of the field administrator.

I pledge to confirm that the rideable area is within the range indicated in advance by the field manager, that the forest road on the way is not included in the rideable area, that I will get off my bicycle when passing through this area, And that I will pay close attention to other pedestrians, vehicles, etc. passing through the forest road regardless of the rideable area. I also pledge to take full responsibility for any accidents that may occur to the owner or manager of the forest road.

I pledge to take full responsibility for any accidents that may occur to the owner/manager of the forest road.

Compensation for me will be provided by the accident insurance, such as sports safety insurance, which I will purchase separately at my discretion.

I will obey the traffic rules set forth by the National Police Agency, "Five Rules for Safe Use of Bicycles," when riding on public roads (national roads, city roads, forest roads, etc.).
